## Clark County property tax increase connected to road improvements

The Clark County Board of Commissioners passed a resolution which establishes a base property tax increase of \$.90 per \$1,000 taxable valuation starting with the calendar year 2015, taxes payable in 2016. The action was taken during the July 7 meeting of the commissioners and passed unanimously.

Richard Reints, chairman of the commission, said that he knew that this would not be a popular decision (to raise taxes to gain revenue). "We all pay taxes and we know that the highway budget has been stressed, over-stressed, for too long a period of time and the need is definitely there to improve our roads. None of us wants to pay more in taxes, but we all want to have good roads to drive on."

This \$.90 per \$1,000 taxable valuation will raise \$800,000 and will strictly go to the highway budget, informed the board, Tuesday morning at their July 21 meeting.

At Tuesday's meeting, the commissioners also approved increasing the county wheel tax from \$4 per wheel to \$5 per wheel with a maximum of 12 wheels. The wheel tax increase and the increase in property tax of up to \$1.20 per \$1,000 in taxable valuation were options put in place by the State Legislature's passage of Senate Bill 1. This bill went into effect on July 1, 2015.

It was noted at the meeting that semis will be paying on 12 wheels now, instead of four and that three percent of the wheel tax (divided by road miles) will now be going to the towns and seven percent of the wheel tax will be going to the county townships.

The recent actions taken by the Clark County Board of Commissioners are intended to help assure that Clark County has the ability to maintain and continue to make improvements on roads and bridges to declare that all of the citizens ing to commissioner Francis Hass. "Federal funding keeps getting cut and state funding relies on federal funds as well. We've gotten too far behind and now the burden has been put on the local level to try to catch up," he said.

Hass then explained that county (asphalt) roads need to be sealed every four to five years and a new mat needs to be applied to each respective road every 20 years. "We're not

are able to travel safely, accord- even close to that."

Hass noted how expensive both oil and sealing oil have been, to provide maintenance on roads. He reported the cost of hot mix in 2013 was \$69.75 a ton; in 2014 it was \$70.25 a ton and in 2015 it was \$70.00 a ton. Sealing oil in 2013 was \$644.65 a ton; in 2014 it was \$699.65 a ton; in 2015 it was \$662.95 a ton.

# "Piecemakers send hope to Africa"

▲ United Methodist Women sew many items

"There's no such thing as too much material," laughs Lael Smith, one of the 'Piecemakers' sewing group at the United Methodist Church in Clark.

The coffee pot is on and the more the merrier is the thinking of the group as they sew up donated material and recycle clothing to make quilts, lap quilts, prayer pillows and most recently dresses and shorts for children in Africa. "We really appreciate it when ma-

terial comes in to us, even old curtains work well, especially for the dresses. We can use the same hem for the dresses," stated Carleton Hanson, a member of the group. "We can really be creative with

the dresses," said Smith. "If there's a stain we can't get out, we'll put a pocket there."

"And we can use rick rack and lace to decorate with," said Pat Seefeldt. "It's a good way to use up material that is not suitable for the quilts we make.

"We always make a twin size quilt for our church members graduating seniors every spring. We've done that since 1998. Before that we made quilts for our Missions in our sewing group."

This is the second batch of dresses and shorts that have been boxed up, about 60 in all, to be sent to Africa to provide relief to orphaned children in the remote villages. Besides Africa, the clothing is also distributed in Cambodia, Guatemala, Haiti, Honduras, Mexico, the Philippines and in the Appalachian Mountains and in our state as well.

The Little Dresses for Africa founder Rachel O'Neill states that little girl orphans are the most devalued and abused in their culture. These dresses give them hope. "All

rica are what the United Methodist Women are sewing nowdays in their sewing group. The group meets on Thursdays at 1:30 p.m. at the United Methodist Church and are called 'The Piecemakers'.

January 2016.

In a week and a half's time on Juggler, helicopter rides, free blood Saturday, August 1, 2015, Clark will hold their 24th annual Potato Day. Some new and exciting activities and events are being added to this year's venue. Sponsored by the Clark Chamber of Commerce, Potato Day 2015 provides activities which are fun for the entire family.

Potato Day headquarters will be located under the Dacotah Bank tent at Dickinson Park. In keeping with tradition, anyone with a tasty potato and chip dip recipe is encouraged to enter the potato and chip dip recipe contest. Everyone always looks forward to the decorated potato contest held at the Clark Flower and Gift Shop.

Much to the delight of fans everywhere, potato wrestling and a Kick Boxing Demonstration will be held. Other much anticipated Potato Day events are the antique tractor parade arrival and the car show. The kiddie tractor pull brings a large crowd of young and old alike to cheer on their favorite competitors. Wrestlers are still needed, so sign up to get in the spuds.

The Arts and Crafts show in Dickinson Park will again feature many vendors. Besides all the potato stuff, the event features those small-town festival activities that keep families and regular folks coming back year after year.

New to Potato Day 2015 are a Zoo School/Petting Zoo, Jason the pressure screenings and the Holy Rocka Rollaz band.
